# The Changing Face of Design and Construction Teams

## Learn About the Ways Design Professionals Can Work Together to Leverage Technology and Generational Differences

It's no secret that teams outperform individuals time and time again. At this seminar, guest speaker Caesar Ruest, BIM Solutions Executive, Autodesk, will talk about Building Information Modeling (BIM), the new technology that is completely changing the way construction and design teams work together. You'll learn more about BIM and the advantages and pitfalls that you should know about when using it. Through our claims examples and workshop, you will also learn how important it is that team members of different generations collaborate and listen to one another effectively in order to avoid liability exposures.

### Why Should I Attend?

Presentations by our panel of experts will help you to:

- learn more about Building Information Modeling, including how you can benefit from this technology and what you should know when using it
- get up-to-speed with current liability and legal issues
- get up-to-date with industry trends that affect your exposure to claims
- learn from real case histories

### eLearning Course Now Available to Policyholders

For more information:

- talk to your broker
- call 1-800-267-6684 ext. 2211
- send an email to [elearningcentre@encon.ca](mailto:elearningcentre@encon.ca)
- go to [www.encon.ca/elearningcentre](http://www.encon.ca/elearningcentre)

### Who Should Attend

If you're an engineer, architect or design consultant, you can't afford to miss this **complimentary** Loss Control Seminar. You will not only learn how to avoid the risk of claims, but also what to expect and what to do in the event of a claim. Loss prevention can save you time and money!

### Accreditation and Premium Reduction

ENCON will recognize your participation in continuing education by offering a \$250 premium reduction per attendee, to a maximum of the lesser of 10 per cent of the premium or \$2,500 per firm.

Architects, engineers and brokers will receive accreditation where allowed by provincial licensing bodies.

There will also be a draw for a \$2,500 premium reduction prize – bring your business cards!

*Get experience on your side*
